OVERVIEW

The Chesterfield Township Library (Library) is issuing a Request for Proposal (RFP) to solicit interest from qualified and bonded professional design firms (Firm) to develop a New Community Library Program proposal (Proposal). The Proposal is sought to aid the Library in selecting the best construction plan that will meet its future service needs. The qualified firm shall be selected using a competitive, quality-based, fair and open process at the sole discretion of the Library.

LIBRARY HISTORY

The Chesterfield Township Library grew out of humble beginnings when in the 1950s the family of Bernard and Ceola Trinity generously opened their 500-volume home library to the community. In 1957, this family collection became a branch of the Macomb County Library System. In November 1994, the Chesterfield Township Library was legally established by voters, a Township Library organized pursuant to Act 164 of 1877, and for 25 years has operated in rented facilities. The Library currently leases a 21,000 square foot converted warehouse at 50560 Patricia Ave. near the Southwest corner of 23 Mile Road and Gratiot Avenue.

The Library’s operations are funded through a 0.7 millage. The Library is governed by an elected 6-member Board of Trustees. July 2018 SEMCOG data numbers the total population of Chesterfield at 45,730. Public libraries in the state of Michigan are organized into class sizes. The Library is a Class V library that serves a population from 26,000 to 49,999. The largest class size is VI, with Class VI libraries serving a population of 50,000 or greater. The Chesterfield Township Library anticipates growing to the largest, Class VI public library and serving such a population in Chesterfield in the near future.

In 2007 the Library initiated a building drive plan that included 12.2 acres of free federal land. The plan was based upon the Library being supported by a new millage to be approved by the voters. The millage request was not supported by the voters, and the land offered by the federal government was lost. The most recent building drive and improvement plan was in November 2018 when the Library Board of Trustees purchased 5.698 acres of vacant land at the southeast corner of 21 Mile Road and Sugarbush Road in Chesterfield Township, TIN: 15-09-32-127-033, for the purpose of constructing a new library building.

Due to the improved economic forecast in the region, the celebration of 25 years of providing essential library services to the residents of Chesterfield, and the anticipation of growing to a Class VI public library, the Library is committed to improving services to its patrons through the provision of a permanent home.

SCOPE OF WORK

The proposal shall include basic schemes to:

1) Design a new construction building on land owned by the Library: 5.698-acre parcel of land located at Sugarbush Road and 21-mile Road, TIN: 15-09-32-127-033.
A Proposal shall include the anticipated costs to execute the schemes. The Library shall select a scheme based in part upon the scheme’s advantages to improve service delivery, comprehensive floor plan options and elevation.

NOTES:

A) The Library estimates the approximate building size needed to support adequate library service for the Township at 35,000 square feet, with the possibility of expansion up to 45,000 square feet.

B) At minimum, all schemes shall include the following desired features:
   a. Library programming room
   b. Conference room
   c. Mechanical room
   d. Dedicated Children’s Programming Area
   e. Dedicated Teen Area
   f. Community Meeting Room with restrooms and night egress
   g. Multiple study rooms
   h. Multiple public unisex-designed restroom facilities
   i. Staff offices, workspaces and processing areas
   j. Staff breakroom and restrooms
   k. Adequate parking
   l. Proposed ingress and egress for vehicles and pedestrians

C) Other areas that are generally accepted as enhancements to modern library service may also be included.

D) A one-story building plan is optimal.
