

### Moving out

With help from Boy Scout Troop 211 last Wednesday, Chesterfield Township Library set up camp two doors down from its location in the Bayside Mall. The relocation gives the library more than double the room, which will provide space for additional equipment such as computers that will link Chesterfield with other county libraries. "This is really neat. The size of it is going to be really great," said Jan Smith, Scoutmaster for the local troop, which volunteered to move and re-shelve books to fulfill a community service project. Nick Larson and Brad Kelly (below) and Brock Tice (above) were among the Scouts on duty.
